2015 – 2018  
Jabalpur, India

### TECHNICAL SKILLS

#### Front-end Skills :

- Familiarity with HTML5 and CSS3.
- Knowledge of responsive design principles and experience with CSS frameworks like Bootstrap.
- Knowledge of Tailwind CSS for utility-first styling.

#### Back-end Skills :

- Server-side programming languages: Python and JavaScript.
- Experience with server-side frameworks like Django and Flask.
- Databases: MySQL, SQLite, and MongoDB.

#### Additional Skills :

- Knowledge of C and C++ languages.
- Operating Systems: Windows and Linux environments and command-line usage.
- Knowledge of AWS for deployment and storage.
- Familiarity with data structures and algorithms.
- Version control using Git and familiarity with GitHub.
- Experience with package managers such as npm, and pip.
- Proficiency in using development IDEs like Visual Studio Code.

### PROJECTS

#### Library Management System (HTML, CSS, Django)

Developed a Library Management System: Streamlined book, user, and transaction management through an intuitive interface, member registration.

#### Spotify-Clone (HTML, CSS, JavaScript)

Developed a Spotify Clone: Created a dynamic and interactive music streaming platform replicating Spotify's user interface and experience using HTML, CSS, and JavaScript.

#### Weather\_Forecast (Python)

Developed a weather app in Python that fetches real-time weather data using APIs. Implemented user-friendly features for displaying temperature, humidity, and weather conditions.
